

BGN UK Hackathon

PreParrot

Hassif Abdulahi Mustafa

Lola Onanuga

Eunbit Kim

Ade Akintola

Ola Otaiku

Rob Otim

Theme:

Build a tool that educates or empowers people

Problem:

People find it hard to memorise speeches,
alongside how they deliver the speeches once
they memorise them

User Needs:

- Improve confidence of delivery
- Assisting memorising speech
- Practice with someone
- Recognise tone of voice

Business Needs:

- Works in tandem with the Google ecosystem
- Improve google translate service
- Fits alongside google's mission statement

Speeches are said everyday by almost everyone for :

- Interviews
- Work presentations
- Best man speeches

Even a showcase today for the BGN Hackathon

I have a dream

05:00

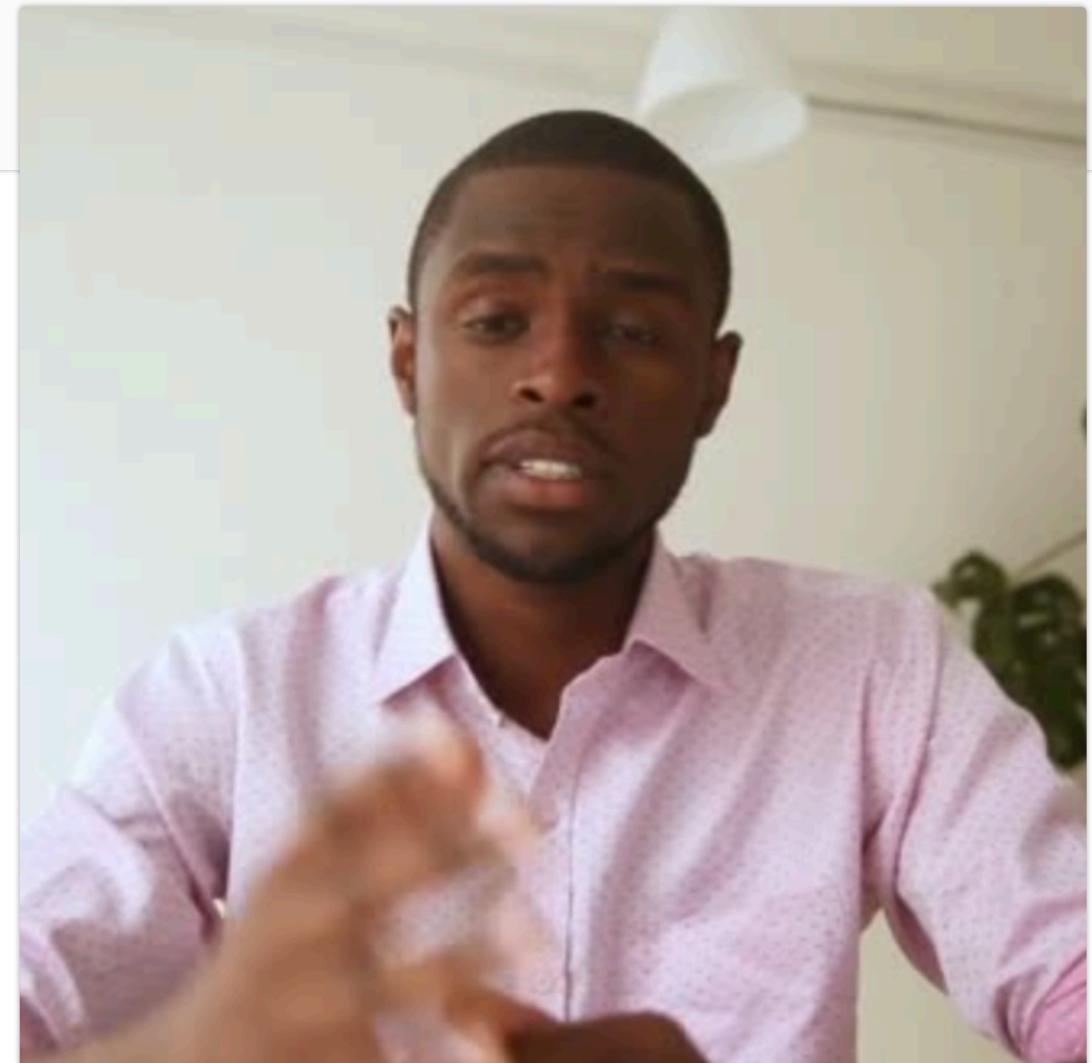

on*

I have a dream that one day this nation will rise up and live out the true meaning of its creed: "We hold these truths to be self-evident, that all men are created equal."

I have a dream that one day on the red hills of Georgia, the sons of former slaves and the sons of former slave owners will be able to sit down together at the table of brotherhood.

I have a dream that one day even the state of Mississippi, a state sweltering with the heat of injustice, sweltering with the heat of oppression, will be transformed into an oasis of freedom and justice.

Recording 01

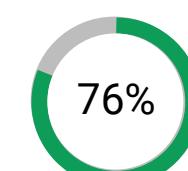

I have a dream that one day this nation will rise up and live out the true meaning of its creed: "We hold these truths to be self-evident, that all men are created equal."

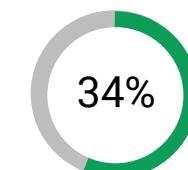

I have a dream that one day on the red hills of **Georgina**, the sons of former slaves and the sons of former slave owners will be able to sit down **together** at the table of motherland.

I have a dream - 26/01/2019 - 10:03:43
03:34

Goodbye speech - 25/01/2019 - 12:06:10
03:34

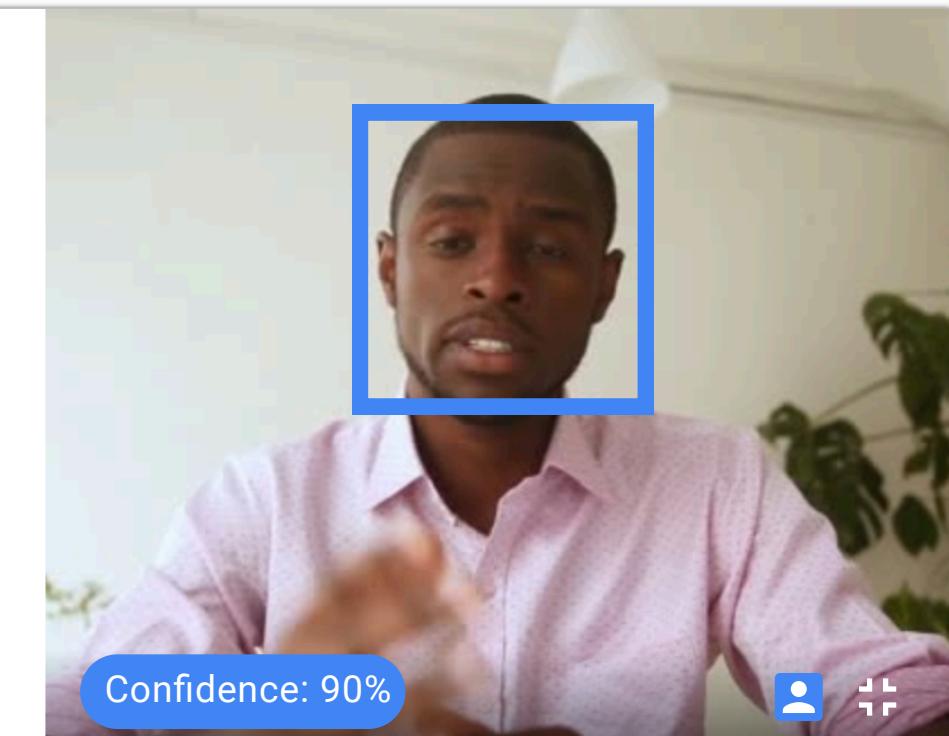

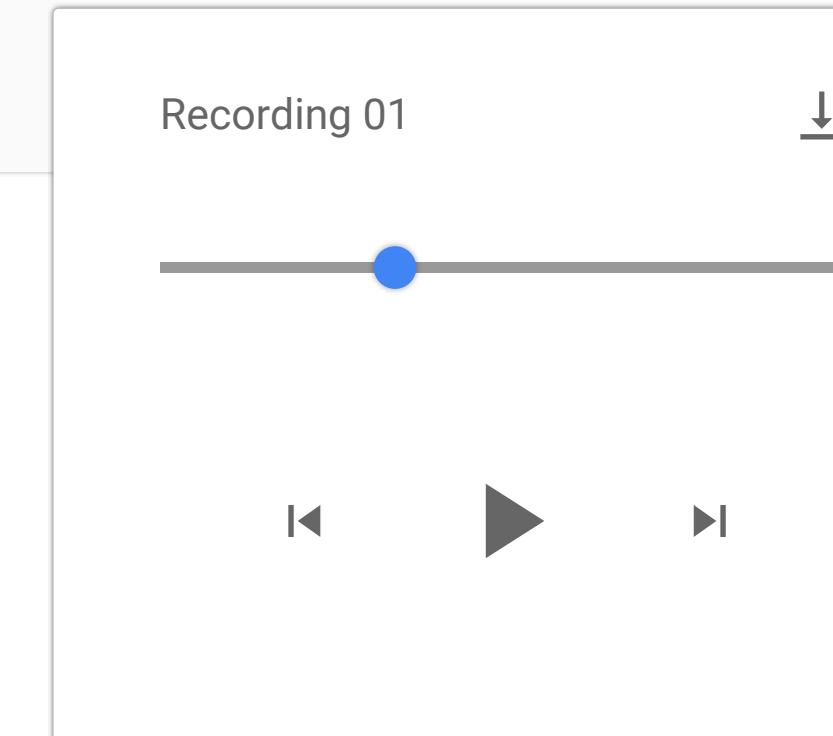

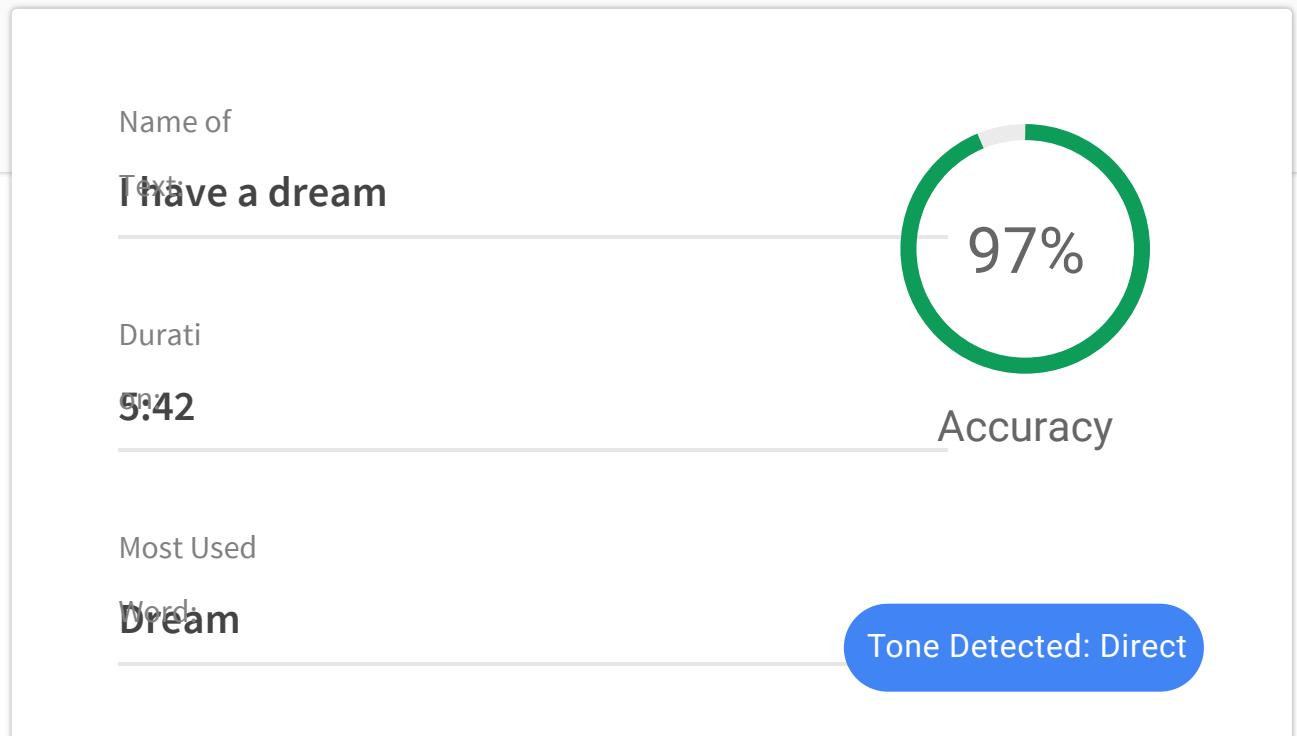

I have a dream - 12/01/2019 - 16:33:32
08:40

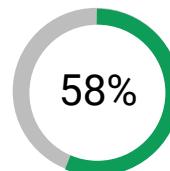

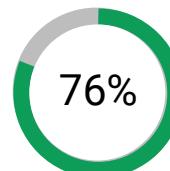

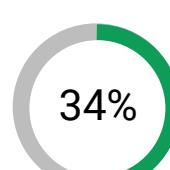

Future Ideas:

- Facial recognition to understand if actions are conveying the right expression
